ACP is committed to providing a safe and healthy workplace and has a duty to safeguard the health of staff and their families, society member, other stakeholders, and visitors. We also have a duty to protect the community at large from infectious diseases such as COVID-19. Therefore, the ACP board has decided that the best way to protect the health and safety or our community is to require full vaccination for all persons who enter the building – including staff from AIP, APS, AAPT, society members, volunteers, vendors, contractors, and visitors. Persons entering ACP must be fully vaccinated. There will be no exemptions. The requirement of full vaccination is effective Jan. 3, 2022.

When visiting ACP, please adhere to the below building protocols:

- Proof of vaccination is required.
  - Proof may be given prior to coming to the building or upon arrival.
  - Physical vaccination card or photograph of the vaccination card is accepted.
- Photo ID is required when entering.
- A temperature check is required upon initial entrance to the building.
- Masks must be worn in common areas such as hallways and lunchroom.
- Masks are not required in conference rooms if all attendees are comfortable without masks. If an individual expresses preference for masks to be worn, all attendees must wear masks.
- Use of hand sanitizer is encouraged.
- Follow the posted social distancing restrictions for the elevators, restrooms, and stairwells.

For questions or concerns, please reach out to your ACP contact or Office Services 301-209-3002, acpservices@aip.org.
